Note: All statistics in this table relating to dwellings, employment, area of crops, and sheep, are ESTIMATES only. In particular, rural statistics should be regarded as approximations as the information has been collected on a different basis, and subsequently estimated on a local government area basis. Changes in population of individual local government areas and statistical divisions are based mainly on recorded changes in the number of dwellings. Allowance is made for changes in occupancy of larger government hospitals, hostels, and camps; no allowance is made for temporary movements such as holiday trips etc. See also note to Table 8. Migratory population is included in Remainder of State.

- (a) Average employment during the year, including working proprietors, classified according to location of factory.
(b) Includes owners, occupiers, etc., but excludes temporary workers.
(c) Total public authority expenditure, including debt charges but excluding expenditure of \$4,587,000 by Highways Department and approximately \$800,000 by South Australian Housing Trust.
(d) Expenditure by local authorities only—includes contributions to hospitals, upkeep of cemeteries, garbage collection and disposal, etc.
(e) Rates assessed on unimproved land values.
(f) Included in D.C. Salisbury and Elizabeth prior to July 1964.
(g) Includes Kapunda Municipality, united with D.C. on 9th July 1962.
(h) Particulars prior to July 1964, refer to D.C. Salisbury and Elizabeth.
(i) Details are for "Primary" statistical divisions; figures for local government areas do not add to statistical division totals and no information can be given for unincorporated areas.
(j) Included in Remainder of State.
(k) Combined figure for Upper North unincorporated and Remainder of State shown under Upper North unincorporated.
(l) Combined figure for D.C. Barmera and Murray Mallee unincorporated shown under D.C. of Barmera.

(a) The statistics in this table refer only to accidents to persons covered by the South Australian Workmen's Compensation Act; they do not show the number of accidents which occurred during the period but are based on reports of claims closed during the period and of unclosed claims of three years duration at the end of the period. For the purpose of the table an industrial accident is "a compensated work injury causing death, or absence of the injured person from work for one week (seven calendar days or five working days) or more, excluding journey cases, cases occurring during a recess period, and disease cases". During the year ended 30th June 1965, insurers received a recorded 55,600 effective workmen's compensation claims and paid \$4,306,000 in compensation.

(b) Compensation for wages lost, hospital and medical expenses, and lump sum settlements.

(c) Less than \$50.
